

# Besto Manifesto, or: Why You Should Elect Me, Rokas Gudavicius, As a Final Year Rep

---

Hello. It me. You might know me from:

- Occasionally folding the used pizza boxes after CompSoc events
- Sending (up to) 2 memes to the INF chat this year
- Wearing a CompSoc beanie
- My expert handling of microwaves

Why I should be rep:

- CompSoc VP experience
- CompSoc 3rd Year Rep experience of doing nothing besides attending meetings
- Experience running GameDevSoc into the ground
- I need access to Patrick's Blue Spark supply

What I will do:

- Mostly nothing
- I'd like to take care of Better Informatics dot com
- Fold pizza boxes
- Attend CompSoc meetings
- If my dissertation ends up being easy, maybe actually get feedback of 4th years and try to figure out how to make CompSoc events appealing for them ͎\\_(\ツ)\\_/͎
